8. Provide cultural, topical, and educational programming for adults and families.

BCPL is a factor in the quality of life available to the residents and visitors of the County. The programming is designed to meet educational and recreational needs of the community.

In 2022, BCPL reimplemented its family dinner series as Community Convos, a community led family dinner series that covers tough topics applicable to the community. In September, the topic was Teen Vaping.

In May, BCPL hosted two art exhibits. One in May was held in honor of a local artist who had passed in the previous year leaving a large number of supplies and resources to the library. The second was a tiny art show to kick off the summer reading program. Entrants in the show were judged by the local art league.

During summer, the library hosted a Community Luau to celebrate Oceans of Possibilities. The event featured an interactive traditional performance from Hiti Mahana Polynesia.

The library hosted fun family activities, such as Harry Potter Night, to encourage family togetherness while enjoying a book themed event.
Attention all
Witches, Wizards, and Muggles

- Get sorted in your Hogwarts house.

- Join us for Magical Button Making.

- Use your Marauders Map for a Scavenger Hunt.

- Let your wand find you at our Wand Shop.

- Join us for a messy magical Potions Making Class.
